2. **Bernadette Powell** is the daughter of a woman in Rolla, MO who died after a toxic dose of Zyprexa (45 mg/day prescribed by a psychiatrist in Farmington State Hospital) destroyed her brain. As the mother of an autistic child, she is also aware of problems with psychiatric hospitals and drugs for children. Call Bernadette in Springfield, MO at [417-889-4758](tel:417-889-4758). Or send her an e-mail at bernadettepowell@sbcglobal.net

Oliver or Bernadette will help you find alternatives to the drug-based psychiatry that has little scientific validity, generates huge profits, and is highly dangerous to life itself.
